3" Poles and Accessories

Our Direct Burial Poles and accessories are made of Extruded Aluminum and Cast Aluminum and are available in your choice of 14 durable powder coated base finishes. Poles require a minimum of 18" of the pole be submerged into the concrete pad for proper installation. The end user must check the local codes and ordinances for minimum depth required for safe installation.

Ordering Example: BA-410 / WRB6 / TSB-201 / TSB2. (3" x 10' Smooth Pole / Town Square Base / Single Sign Mount / Pole Topper)

Pole Toppers: All Toppers completely cover the top of the post to keep out the elements.

Poles: 3" O/D Extruded Aluminum Poles. *(Break Away Poles are Federal Highway Administration Approved).*

As Shown:

Custom Blade Designs available

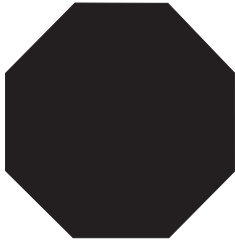

- Special Lite Products can custom cut vinyl to give your basic street signs a unique look or custom cut metal blades to create logos or other designs to make your signs stand out from the rest.

Traffic Sign Back Plates-

Measurements are for the Sign Blade going onto the backplate. Backplates have a 1" wide edge on all sides. The Traffic back plates are provided undrilled for custom mounting.

To order a custom backplate use the item number BP followed by the height then the width of the sign. For example: to order a Back Plate for a 24" x 30" sign the item number would be BP-2430.

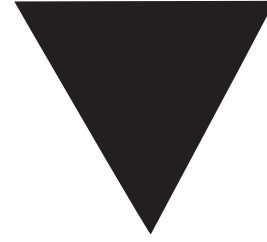

24" Back Plate BP-24-OCT
30" Back Plate BP-30-OCT

24" x 24" Back Plate BP-2424
30" x 30" Back Plate BP-3030

12" x 18" Back Plate BP-1218
18" x 24" Back Plate BP-1824

30" Back Plate BP30-TRI
36" Back Plate BP36-TRI
measurement is corner to corner

Traffic Sign Frames-

Measurements are for the Sign Blade going into the frame. Sign Frames have a 1" square edge on all sides. To order a custom Sign Frame, use the item number SF followed by the height then the width of the sign. For example: to order a Frame for a 18" x 30" sign the item number would be SF-1830.

24" Frame SF24-OCT
30" Frame SF30-OCT

24" x 24" Frame SF-2424
30" x 30" Frame SF-3030

12" x 18" Frame SF-1218
18" x 24" Frame SF-1824

30" Frame SF30-TRI
36" Frame SF36-TRI
measurement is point to point

Choose from our symbol collection below or submit your own logo (*must be submitted as an Illustrator .EPS file.*)

Entrance Signage / Custom Signage

Specially designed area directional and entrance signs can be placed throughout your community or business complex to direct motorists, bicyclist and pedestrians to key locations. Standard and custom size signs available. Signs can be made from a variety of materials. Add decorative poles bases and toppers to create beautiful signage units for your community or commercial property. Call today for more information and pricing.

Lighted Address Plaques Give your home the mark of distinction with a bright and durable Lighted Address Plaque. Visible at over 100 feet away, these Low Voltage Address Plaques are made from Cast Aluminum or Rigid Polymer. These Plaques can be wired directly to your door bell transformer or plugged directly into a wall outlet with the optional Wall Outlet Transformer. Ten feet of Low Voltage wire is included with the Plaques. Choose up to five 4 inch black numbers per Lighted Address Plaque at the time of order. Cast Aluminum Address Plaque frames available in all Special Lite finishes.

Bollards Decorative Cast Aluminum Bollards can be used at key locations to create a sense of separation between pedestrian and vehicular areas and to add visual interest to the streetscape. Please specify if chain loops are required. Bollards ship standard without chain loops.

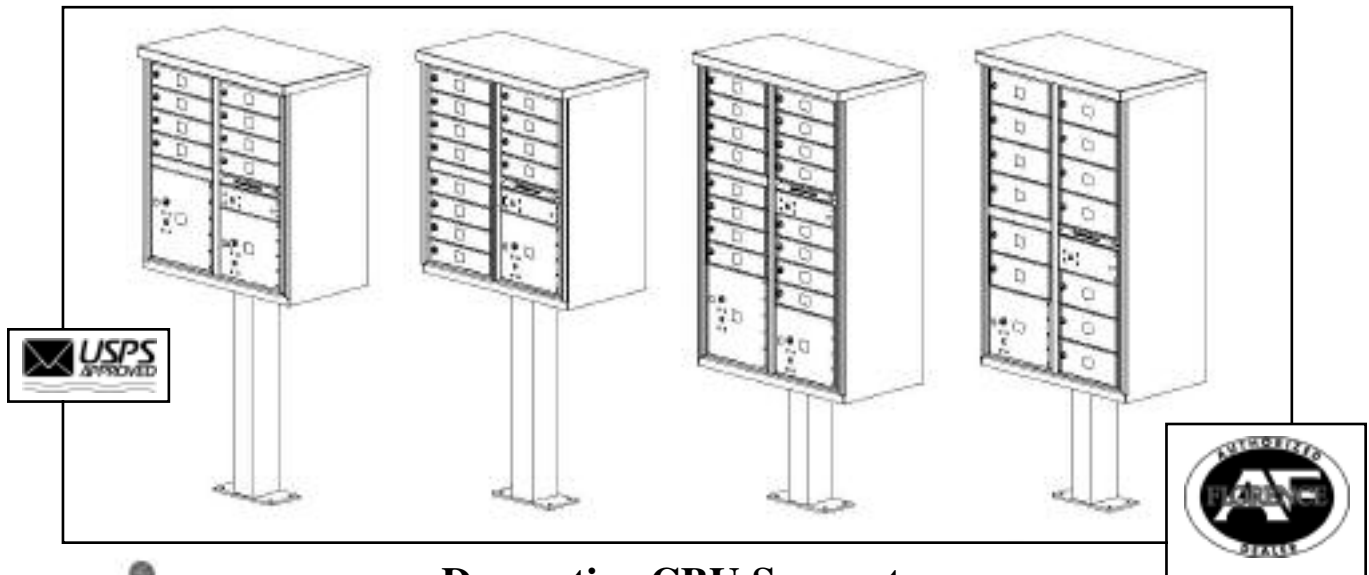

CRASH TESTS: We have not conducted nor do we intend to conduct a laboratory crash test. We do not boast or claim that given bollards will withstand any given force or impact for liability purposes. It would be comparable to saying all telephone poles or trees will withstand the same impact. Bollards are manufactured and designed as a deterrent and safety precaution.

Cluster Box Units

The Florence vital™ 1570 series cluster box unit design has been adopted by the USPS as the design standard for all CBUs manufactured in the United States. We are pleased to offer a complete line of USPS approved cluster box units to fit your individual project needs. We are proud to offer you the security and reliability that the USPS depends on every day.

Standard Features:

- * Robotically welded cabinet and hood seams
- * Rugged, weather resistant powder coat finish resists scratching and vandalism
- * Constructed of 300 series stainless steel and aircraft aluminum, including aluminum pedestal
- * Master front loading door designed to prevent prying with interlocking overlap seams
- * Solid aluminum mail slot frame, similar to Florence exclusive HSCBU design, protects adjacent customer compartment and collection compartment
- * Silver adhesive metal placards with black numbers 1-16 and 1P-2P

Decorative CBU Supports

Looking for a way to turn your standard CBU into something more “upscale”? Special Lite Products has created a CBU upgrade kit. This kit is designed to fit the most popular styles of CBUs and can be used as a retro fit or new installation.

Our kit features all cast/extruded aluminum construction, stainless steel screws, and a powder-coated finish. Installation is quick and easy.

Please contact us on pricing for your specific model.

Curbside Mailboxes *(See our catalog for our full line of mailboxes.)*

Berkshire Curbside

The Berkshire Mailbox presents an impressive face. The one piece cast aluminum door features deeply cut details with a rich, leather grain textured panel. The rust proof cast aluminum body construction creates a weather resistant mailbox and the stainless steel spring hinge and magnetic catch will keep the door secure.

The Berkshire is available with numerous Address Number options. We can install up to five 2" address numbers in Stainless Steel or Polished Brass on the door, up to five 3" numbers on the optional side panels or in both locations.

Description	Item #	Height	Width	Depth
Berkshire Curbside	SCB-1015	10"	9"	19 3/4"
Berkshire Curbside w/ Paper Tube	SCB-2015	15"	9"	19 3/4"

Town Square Curbside

Presenting a sleek modern design, the Town Square will complement both contemporary and traditional architecture perfectly. Combining modern design elements with classic styling, this mailbox is not an "off the shelf" mailbox and will improve the curb-appeal of your home.

Description	Item #	Height	Width	Depth
Town Square Curbside	STB-1007	10 3/4"	10 1/2"	21"
Town Square Curbside w/ Paper Tube	STB-2007	15 1/4"	10 1/2"	21"

Classic Curbside

The traditional shape of our Classic Mailbox is the only thing this mailbox has in common with a typical curbside mailbox. The solid cast aluminum construction, with thicker walls than our competitors, provides added strength, and the powder coated finish will maintain a lifetime of beauty.

Description	Item #	Height	Width	Depth
Classic Curbside	SCC-1008	10"	8 3/4"	20"
Classic Curbside w/ Paper Tube	SCC-2008	15"	8 3/4"	20"

Mailbox Posts: Each Cast Aluminum Mailbox Post has maintenance free Powder Coated base finish. Our Aluminum Mailbox Posts have an 18" burial portion to ensure a secure base for your mailbox

Commercial Lighting

Coordinated decorative street lighting will improve vehicular safety, while enhancing the visual image of the community. Special landscape areas and signage locations should be lit, as well as locations with unique features.

Whether you are a builder creating a master planned community or an architect developing a new lifestyle center, Special Lite Products offers the value you've been looking for. These are rust free and maintenance free outdoor lighting fixtures that increase property values and bring a decorative, uniform appearance to both old and new communities

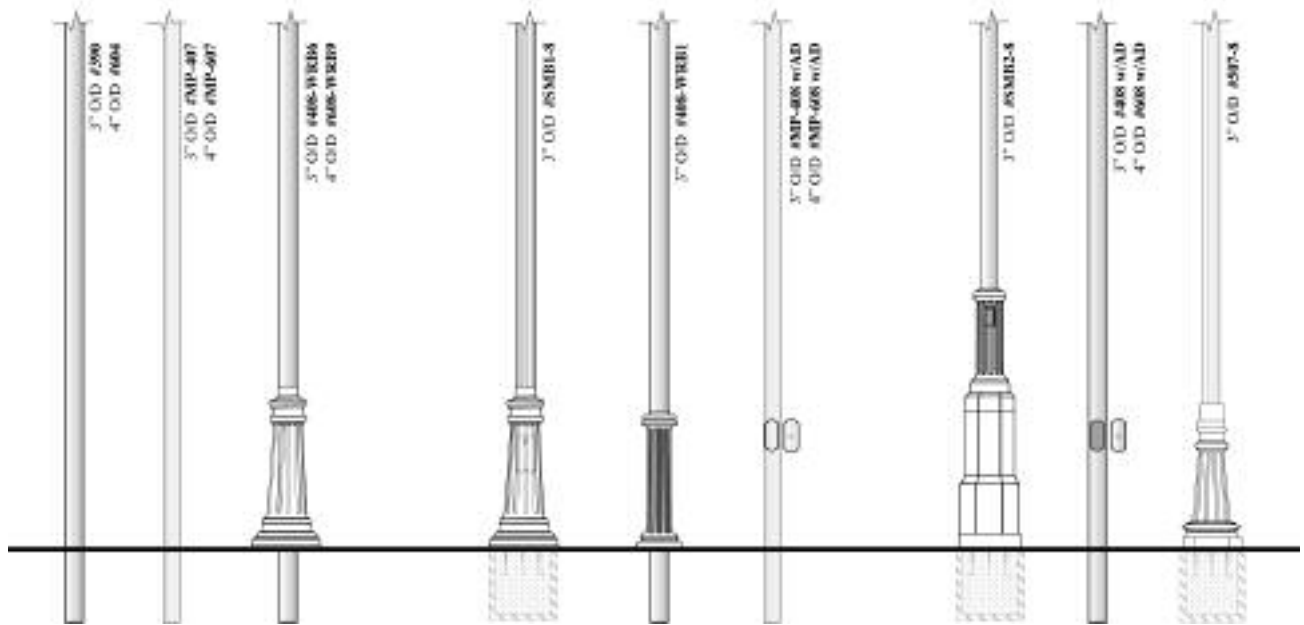

We also offer several choices of Commercial Lighting Globes with several High Intensity Discharge lighting options. Lamp post choices available up to 16' in height.

Commercial Lighting Poles

Direct Burial Poles: Requires a minimum of 18" of the pole be submerged into the concrete pad for proper installation. The end user must check the local codes and ordinances for minimum depth required for safe installation.

Surface Mount Pole: The SMB1 and SMB2 Bases may be mounted to a concrete pad by means of "J"-bolts embedded in the concrete (*sold separately*).

Commercial Lighting

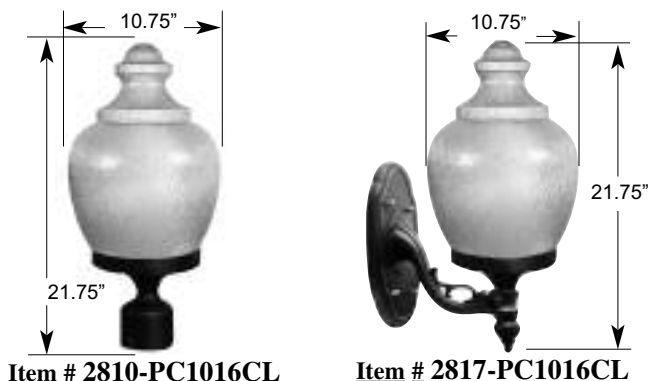

High Intensity Discharge Lighting or HID offers the advantages over incandescent lighting of increased energy efficiency, longer bulb life, and brighter light. We offer two **HID** light sources, High Pressure Sodium and Metal Halide. These quality lighting fixtures are manufactured from Cast Aluminum with enclosed ballast and stainless steel hardware. The Globe is held onto the fitter by four 1/4-20 set screws and the Ballast can be easily changed in the field by loosening two screws. Porcelain socket will be Medium or Mogul base. Lamp not included. TSB-15 (4" to 3" Pole Adaptor) required if using with a 4" O/D pole (*sold separately*).

Metal Halide

- Produces a pure white light
- Enormous amount of light with excellent color rendering
- Bulbs last six times longer than incandescent

High Pressure Sodium

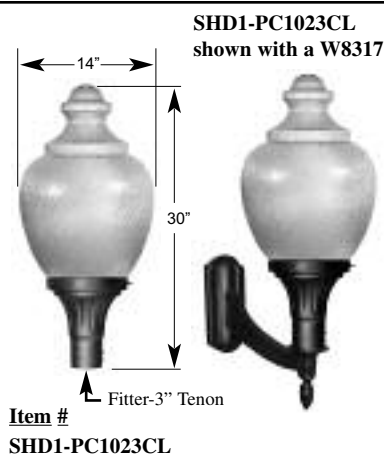

- Produces a golden-pink cast
- Most efficient light source commercially available
- Bulbs rated at 24,000 hours

Accessories-Accessorize your street lights to better service your community. Add appeal with our variety of light arms, direct light with 90 degree or 180 degree house shields, or add dusk to dawn controls or an electrical outlet to your street lights. We even have a decorative finial for an acorn globe.

House Shields

House side shields are available to cutoff all direct light through certain horizontal angles. Both models clamp around the socket and are designed to be positioned in the field after installation of the fixture. Fits medium base socket unless other option is specified.

Set of three J-Bolts
Includes washers and nuts.

Dark Sky Reflector- This product meets both old and new IES criteria for Uplight minimization. The amount of "Cut Off" you require can be achieved through the proper positioning of this component. With three standard mounting heights and unlimited possibilities, you can achieve maximum usable light while still allowing only a minimal amount of Uplight. Use with most Traditional Streetlamps, Globes & Acorns (for neck size 8" or larger, 7" min opening.)

- High Downlight Efficiency
 - Low Uplight Levels
 - Ideal For Retrofits
 - Easy To Install, Self Collapsing Design
- Easy Access for Lamp Replacement
 - Made of High Heat Resin
 - Self Positioning & Leveling
 - Adjustable Light Output Levels
 - **Use With 175W MH Max**
(237°F / 114°C)

H.I.D. Ballasts

HIGH PRESSURE SODIUM AND METAL HALIDE

Turn Special Lite's decorative outdoor post lights into H.I.D. light fixtures with an H.I.D. Ballast. All ballasts shown are designed to fit inside 3" and 4" O.D. posts. All ballasts are provided with a metal hanger strap for suspension inside the top of the post.

MH-50

Metal Halide

- Produces a pure white light
- Enormous amount of light with excellent color rendering
- Bulbs last six times longer than incandescent

HPS-35 / HPS-50 / HPS-150

High Pressure Sodium

- Produces a golden-pink cast
- Most efficient light source commercially available
- Bulbs rated at 24,000 hours

Item #	Wattage	Light Output (lumens)	Lamp Life (hours)
MH-50	50	1,900	24,000
HPS-35	35	2,050	16,000
HPS-50	50	3,600	24,000
HPS-150	150	5,000	24,000

HID Lighting is available on all single post mounted lanterns or as a separate kit to retrofit an existing light.

The Kit contains: Canister Ballast

Mounting Bracket

Heavy Duty medium base socket

Bulbs sold separately

With a post lamp:

Specify type of ballast using corresponding products number, then the fixture number, finish, and glass choice.

Example: MH50-2730-BL-BV

Not for use with Tri-Lights or Combination Twin Lanterns.

Kit by itself:

Specify type of ballast using corresponding products number.

Example: MH50

Design Theme

To create a distinct, consistent, and high-quality appearance for your community, a coordinated streetscape design theme should be established that addresses roadway frontages, streets, driveways, parking lots, individual homes, and public spaces. The following elements should be included in that overall design.

- Decorative Street/Traffic Signage
- Directional Signage
- Informational Signage
- Bollards
- Residential Outdoor Lighting
- Address Plaques
- Decorative Street Lighting
- Mailboxes
- Mailbox Posts
- HID Lighting
- Dark Sky Reflectors
